**SUBJECT:** Plastic Film Recycling

---

By way of this memo, I am writing to draw your attention to an urgent environmental matter that requires our collective action - the recycling of plastic film. As you are aware, plastic pollution is a growing concern globally, and our city is not immune to this challenge. Plastic film, often used in packaging and bags, is a significant contributor to this issue due to its widespread use and difficulty in recycling through conventional methods.

Our city has always been a leader in environmental stewardship, and I believe it is time for us to take a decisive step forward in addressing the plastic film challenge. The success of this initiative hinges on our collective commitment and action. Therefore, I urge each of you to consider the long-term environmental and economic benefits of this proposal. By implementing this program, we can significantly reduce the amount of plastic waste in our city, contribute to a cleaner and healthier environment, and set an example for other cities to follow.

I am looking forward to discussing this initiative in more detail at our upcoming commission meeting. Your support and input will be invaluable as we strive to make our city more sustainable and environmentally responsible.
