**DATE:** August 20, 2018

**SUBJECT:** New School Year, Enhanced Safety Practices

---

As a new school year begins, it is important to ensure the safety of our children. It is my recollection that on May 8, 2018, the commission unanimously agreed to have staff implement public safety practices which would include additional seasonal officers to patrol local schools.

Please note, upon my request, my office has added this topic as a commission discussion item to take place during the August 20, 2018 commission meeting. As part of this request, I would like to receive an update of the public safety measures that are being practiced this new school year in Coral Gables' public schools. More specifically, I would like to see a detailed breakdown of the current schedule and police officer assignments at each of our public schools. This would allow residents to obtain a better understanding of the City's commitment to enhance school safety.

For any questions, please contact me directly.
