

Galaxy Jar

Materials:

- Glass Jar with Lid
- Paint (multi colors)
- Cotton Balls
- Glitter
- Water
- Cups
- Unsharpened Pencil

Directions:

- Step 1:** Fill cups halfway with water then add some drops of paint to the water and slowly stir the mixture.
- Step 2:** Take the cotton balls, stretch them out and then fill the bottom of the jar in a good layer of cotton.
- Step 3:** Add some glitter. Gently shake to spread out the glitter.
- Step 4:** Pick one of your color mixtures and pour into the jar. Don't over fill, just enough for the cotton to absorb the paint. (If you fill it too much just add more cotton balls to the jar).
- Step 5:** Repeat step 3 and 4 with as many colors/glitter as you'd like until jar is full.
