

Vegetation Scavenger Hunt

Royal Poinciana

William H. Kerdyk, Jr., and Family Park is known for this tree, but can you find one in another park?

I found it at _____

Ficus Benjamina

Also called a Weeping Fig, these trees are very old!

I found it at _____

Gumbo Limbo

This tree's bark looks like sunburnt skin, earning it the nickname "Tourist Tree." Did you know its wood was once used to make carousel horses!?

I found it at _____

Dade-County Pine

Native to the Everglades, this tree is so important to South Florida, it was almost overharvested to extinction!

I found it at _____

Bulnesia

This tree has beautiful yellow flowers and it is not deciduous, meaning that it doesn't lose its leaves when it flowers, which is very rare on flowering trees.

I found it at _____

Silver Saw Palmetto

Your eyes aren't playing tricks on you! These silver palmettos are native to Florida.

I found it at _____

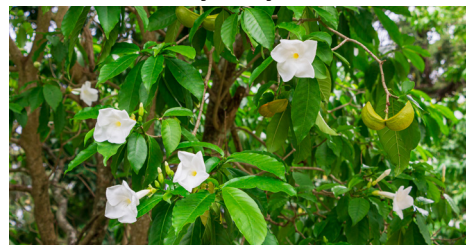

Dwarf Fakahatchee Grass

During spring and summer, rust colored flower spikes stand just slightly taller than the green foliage.

I found it at _____

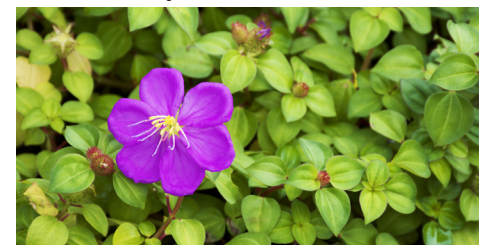

Milky Way Tree

This rare tree flowers throughout the year with fragrant white, star shaped flowers. It is considered one of the most beautiful tropical trees in the world.

I found it at _____

Spanish Shawl

This striking plant has red stems and beautiful purple flowers. Search near the ground, as it grows to just 2 inches tall!
